KATHLEEN SOTTILE, Ed.D.

Superintendent of Schools

November 30, 2020

Dear Floral Park – Bellerose School Community,

Today, the Floral Park-Bellerose School District was notified by the Nassau County Department of Health that a student at the Floral Park-Bellerose School has tested positive for COVID-19. Following the guidance issued by the New York State Education Department and New York State Department of Health, this class, its students and teachers will be quarantined. The teachers and all students affected by this quarantine will be working remotely starting tomorrow.

We will continue to work closely with the Nassau County Department of Health and take all necessary precautions to ensure the health and safety of our school community. The building, especially the room that was occupied by the quarantined individuals, will be thoroughly cleaned and disinfected.

This class will not return to school until they have completed the mandatory quarantine period as recommended by the DOH and CDC. They will return to in-person instruction on December 15th.

The symptoms of COVID-19 are similar to the regular seasonal influenza and include fever, coughing, and shortness of breath. Some have reported additional symptoms, such as a runny nose, sore throat, nausea, lethargy, lack of appetite, vomiting, and diarrhea. If your child is exhibiting any symptoms such as those listed above, please contact your child's medical provider to report their illness prior to seeking care at a clinic, physician's office, or hospital.

I am confident our approach to addressing the safety of students and staff during the pandemic will continue to serve the entire community well. If you have any questions, please feel free to contact the building Principal, Mrs. Jamie Adams.

Sincerely,

Dr. Kathleen Sottile
Superintendent of Schools
